

PRAHA - PHOTO CAMP

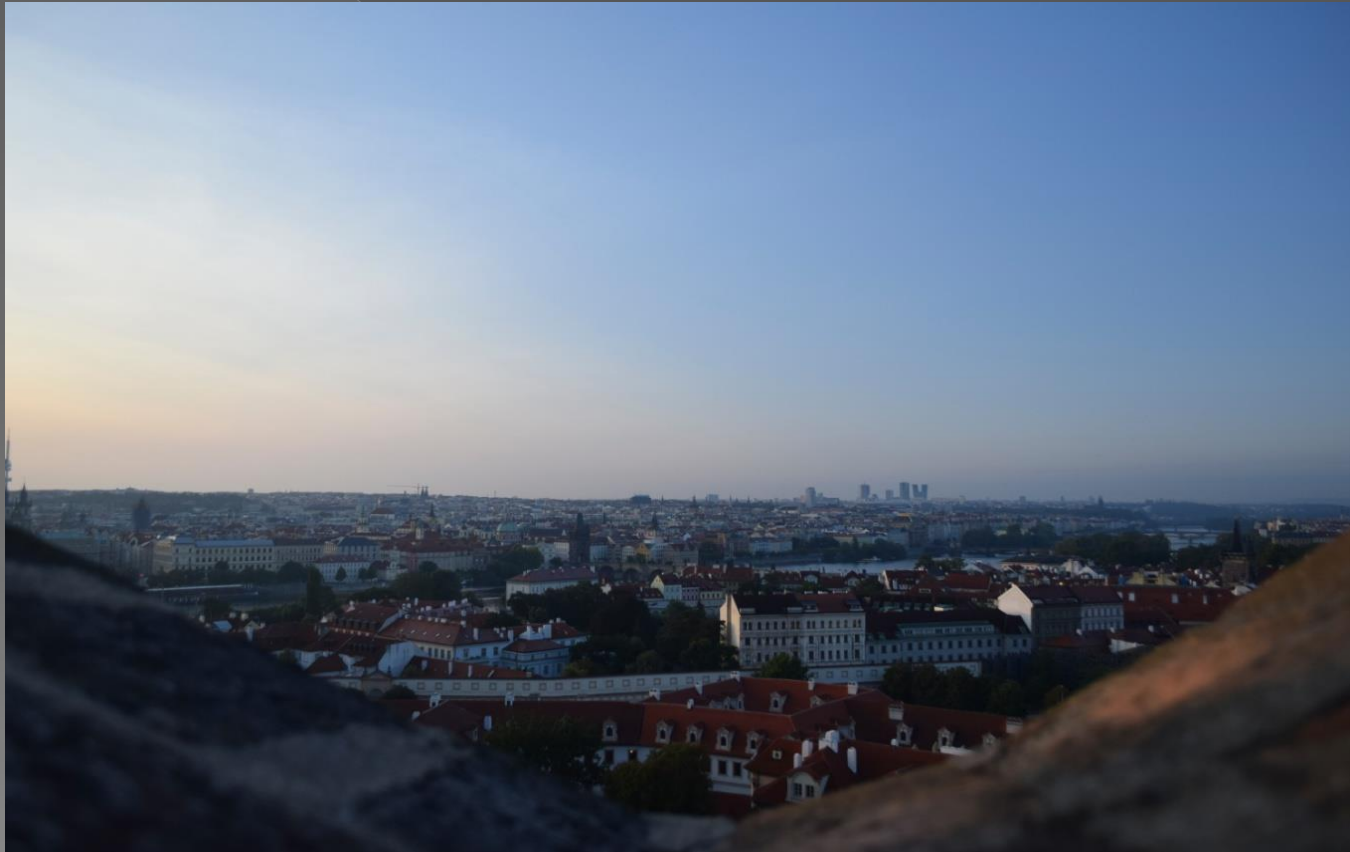

FIRST DAY

On the first day we went straight to Charles Bridge and decided to explore some of Prague.

Then we went to the castle from which it was possible to see the whole panorama.

On the castle square we spent about 2 hours doing various photo assignments.

Around 7:00 pm we went to dinner and then to our hotel. The view from the window was on beautiful old buildings and a very busy street.

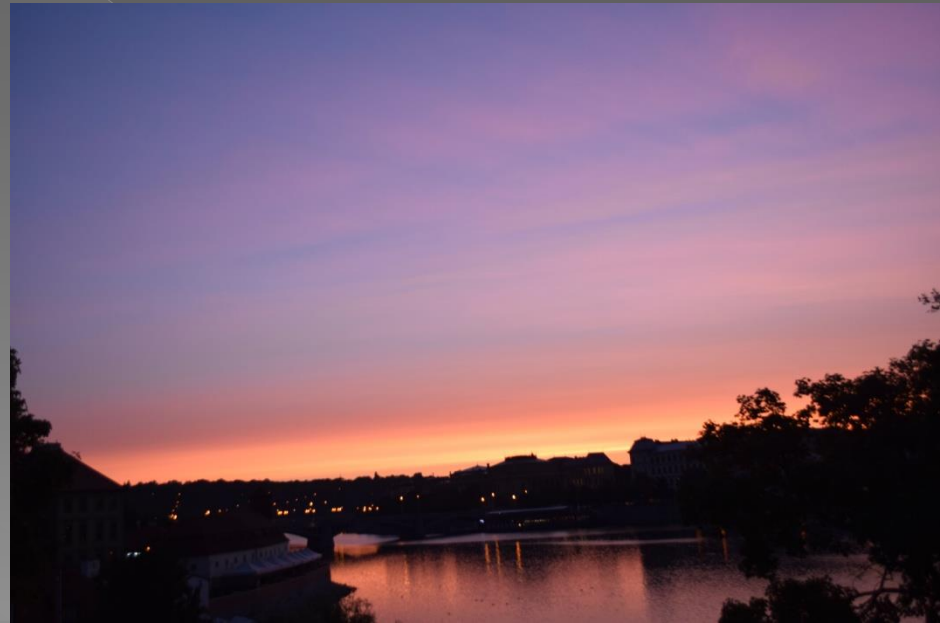

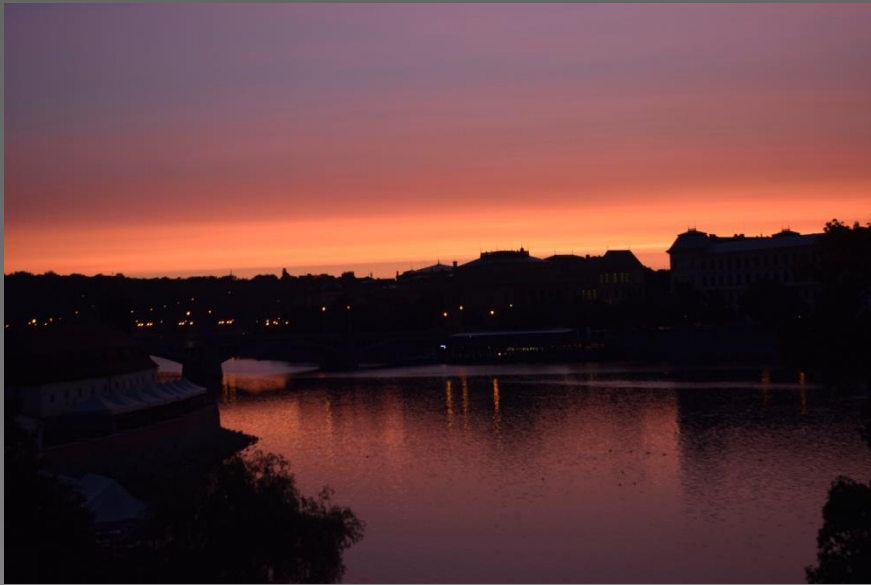

Every now and then the trams that were very frequent woke us up in the middle of the night 😞

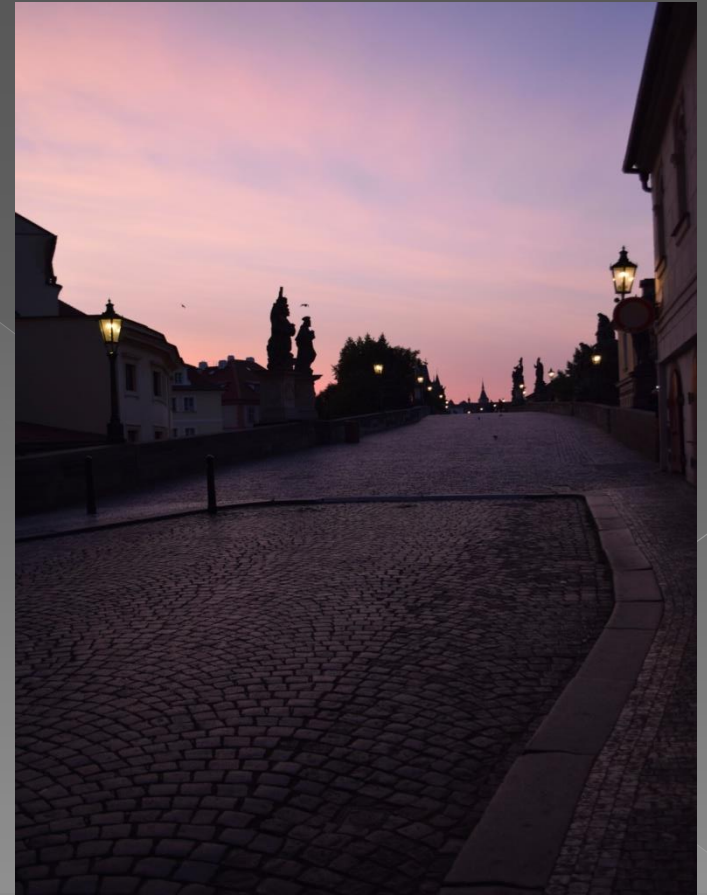

SECOND DAY

The second day was definitely the heaviest. We were up at 4 am to get to the sunrise. We were tired and sleepy, but the views of the rising sun were

We were able to make some pictures of the empty Charles Bridge which is impossible. There were several other photographers who did not bother to take pictures.

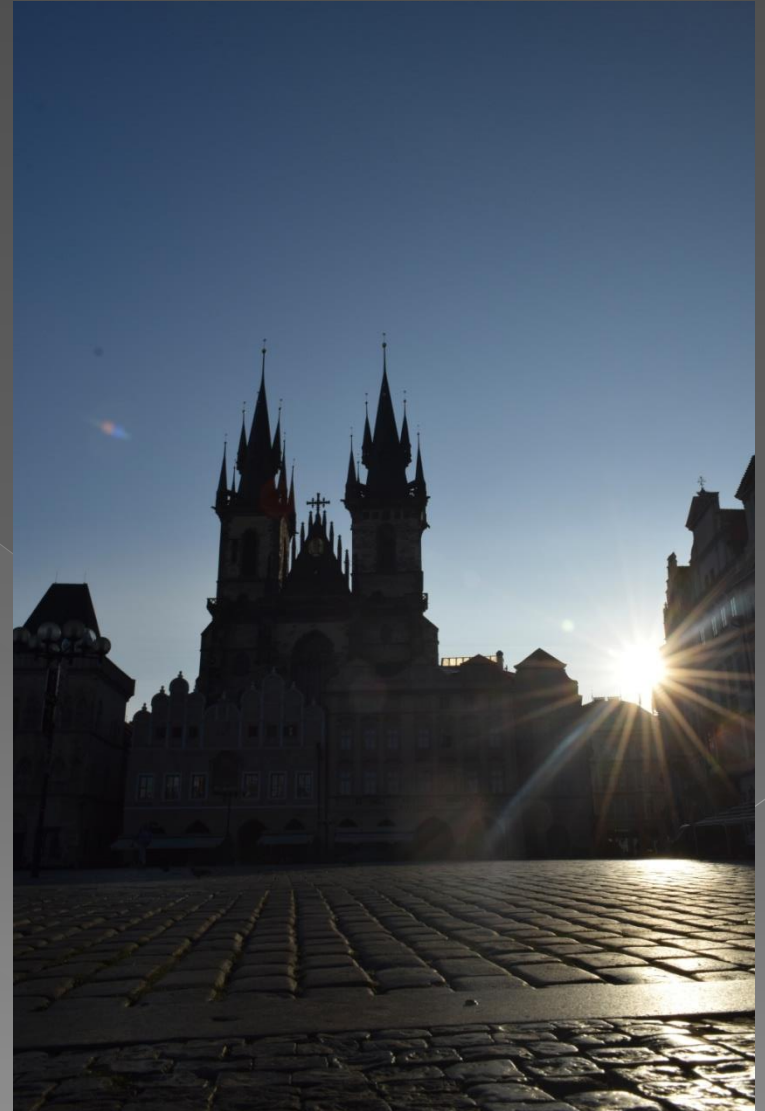

Then we went to the castle to take a few shots there.

There are stairs leading to the castle and in the afternoon it is hard to move around them.

On the way back to the hotel I also took pictures of places where it is never empty.

We returned to the hotel for breakfast and went to take a different photo.

THIRD DAY

On the third day each of us received different assignments.

Then we went to the quadruple
miniature replica of the Eiffel Tower.

Then we went to the Charles Bridge and then to the hotel.

After an hour's break we went to the Golden Alley. I do not have a picture because I did not like it very much and there were a lot of people 😊. Then we went to the square and made some photos there.

FOURTH DAY- LAST

On the fourth day most things happened. Probably because we had to do something from 11 am to 12pm. After checking out we went to do so called „street photo“.

By 3:00 pm we went to the park and got 3 assignments which took us 2 hours.

At about 7:00 pm we went to our hotel, next to which, the park was situated. We had a light and very interesting photos coming out.

After that we went to the pavement next to the street and there we took pictures of the trams. Both pictures broke my sony writing.
